

AquaCUE® Flow Measurement Manager

Pricing Terms and Conditions

The following Terms & Conditions apply to AquaCUE® Flow Measurement Manager services sold by Badger Meter, Inc. ("Badger Meter") to a customer ("Customer") and are in addition to those found at <https://www.badgermeter.com/certifications-legal/>, and as appropriate, the AquaCUE General Agreement.

ONE-TIME FEES

AquaCUE Engagement Fee (Part Number: AQUACUE-ENGAGEMENT)

A one-time Engagement fee is required for all new AquaCUE accounts. This fee includes the setup and activation of the Customer's AquaCUE portfolio and initial licensing of the AquaCUE software. The one-time fee will be invoiced by Badger Meter.

AquaCUE Flat File Integration Fee

This fee includes the mapping of a billing flat file (.csv) format to the AquaCUE account. Fees charged to a Customer by its billing vendor for an interface file are separate and are the responsibility of the Customer. The Flat File Integration Fee will be invoiced by Badger Meter.

SERVICE UNITS

Recurring service fees are based on asset type and assessed monthly ("Service Units"). Asset types are identified by unique Service Unit part numbers as represented in this section. Service Units will be invoiced by Badger Meter.

Customers deploying an AquaCUE system will be assessed managed solution subscription fee Service Units, which include Customer's access to the AquaCUE software, hosting of Customer's metering data, and technical support. Managed solution Subscription Fee Service Units (68886-104) will be assessed monthly, per eligible AquaCUE connected endpoint in the Customer's AquaCUE account. An AquaCUE connected device will consume one or more Service Units each month, based on data interval and call-in frequency, and will be assessed monthly. Service Units will be consumed for any managed solution endpoint which has been activated or is more than six months past its original manufacturer ship date.

SERVICE UNIT PRICING AND PAYMENT

Customer will be required to submit a purchase order (PO) to Badger Meter for applicable Service Units.

By default, AquaCUE Service Units will be invoiced annually in advance of use. However, Service Units may be purchased in Customer-defined increments except where minimum multiple purchase increments have been stated. Reorder increments will be established at the time of initial purchase and may be modified at a later date. Service Unit price may vary if purchase increment is changed.

Service Unit pricing is Net to Customer and will be invoiced by Badger Meter based on Customer-defined Service Unit purchase increments or minimum multiple purchase increments as noted. Service Unit part numbers are denoted as 68886 and have been included in this document for cross reference with Customer pricing proposal.

Service Units will be consumed on a monthly basis, as applicable to each asset type.

Service Units are non-refundable and non-transferable to another entity without Badger Meter approval.

Service Units may be converted to like-valued or higher Service Units of a different asset type with Badger Meter approval.

Service Units expire ten (10) years from date of purchase. Expired Service Units will be forfeited unless converted prior to expiration.

Upon termination of a Customer's AquaCUE services, for whatever cause, unused Service Units will be forfeited if not converted to Badger Meter future purchase credit within ninety (90) days.

Failure to renew services at term expiration, or pay for services invoiced by Badger Meter or one of its authorized distributors, may result in termination of services and limited access to Customer's AquaCUE account at the discretion of Badger Meter.

Once deactivated by the network carrier, cellular endpoints cannot be reactivated.
