CONNECTING TO myQ Business Community

Simply choose one of the following options to connect CAPXL and CAP2D to the Internet:

WI-FI®
- CAPXL Includes Wi-Fi, Making It Easy to Connect New or Existing Wi-Fi Routers
- Eliminate Trenching
- Make Retrofit Installations Easy

CELLULAR
- Bring Connectivity Anywhere
- Ideal for New or Retrofit Installations with Limited Access to an Internet Connection
- Make Retrofit Installations Easy

WIRED HIGH-SPEED
- Connect to a Router, Switch or Local Network Already on Site
- Perfect for Large Sites with Lots of Entrances

DSL
- Upgrade an Existing Analog Line to DSL
- Contact Your Local Internet Service Provider (ISP) for Availability in Your Area

PRODUCT KEY
- CAPXL — Connected Access Portal, High Capacity
- CAP2D — Connected Access Portal, 2-Door Controller
- CSW24UL — Commercial Swing Gate Operator
- HCTDCUL — Specialty Overhead Operator
- KPR2000 — Wired Keypad and Proximity Reader
- PASSPORT REMOTE CONTROLS — Visor and Keychain Remotes with Unique Credentialed IDs
- RFID SYSTEM — RFID Long-Range Reader and Vehicle Tags
- CSL24UL — Commercial Slide Gate Operator
- LMRRIUL — Mvntorv Retro-Reflective Photo Eye
- MTF — Motorized Integrated Barrier Gate Traffic Spike System

OPTIONAL GUEST MANAGEMENT

Keep the community more secure by giving residents a tool to grant temporary access instead of handing out their personal entry code.

- Empower residents to easily set up and manage their own guest list for one-time, multi-day or recurring events.
- Invited guests are automatically emailed custom trackable entry codes, active only during the event.
- Community manager retains overall control, setting limits on the number of guests that can be invited and the number of events a resident can create before requiring manager approval. Additionally, certain people and groups can easily be blocked from creating events.
- Provides a special guest-management-only page on myQ Business Community, with each resident using their own individual log-in and password.
**Smart Access Control Software for Residential Community Management**

### Key Features
- **Remote Management**: Live, web-based access control.
- **Secure Control**: Monitoring and alerts.
- **Control Every Entrance**: With a single database.
