Material Safety Data Sheet
TempSpan® Temporary Crown and Bridge Material - Base

1. Product and company identification

Product name: TempSpan® Temporary Crown and Bridge Material - Base
Material uses: Dental product (Kit)
Manufacturer: Pentron Clinical
1717 West Collins Avenue
Orange, CA  92867-5422
Telephone no.: 1-203-265-7397, Toll Free: 1-800-551-0283

Prepared by: IHS
In case of emergency: CHEMTREC® (24 hours) U.S. : 1-800-424-9300 International: +1-703-527-3887

2. Hazards identification

Physical state: Solid. [Paste.]
Color: Various
Odor: Fruity.

Emergency overview
Signal word: WARNING!
Hazard statements: CAUSES RESPIRATORY TRACT AND EYE IRRITATION. CONTAINS MATERIAL THAT MAY CAUSE TARGET ORGAN DAMAGE, BASED ON ANIMAL DATA.

Precautions: Health effects are based on the uncured material. Avoid contact with eyes, skin and clothing. Use only with adequate ventilation. Keep container tightly closed and sealed until ready for use. Wash thoroughly after handling.

Routes of entry: Dermal contact. Eye contact. Inhalation. Ingestion.

Potential acute health effects
Inhalation: Irritating to respiratory system. Exposure to decomposition products may cause a health hazard. Serious effects may be delayed following exposure.
Ingestion: No known significant effects or critical hazards.
Skin: No known significant effects or critical hazards.
Eyes: Irritating to eyes.

Potential chronic health effects
Chronic effects: Contains material that may cause target organ damage, based on animal data.
Carcinogenicity: No known significant effects or critical hazards.
Mutagenicity: No known significant effects or critical hazards.
Teratogenicity: No known significant effects or critical hazards.
Developmental effects: No known significant effects or critical hazards.

Fertility effects: No known significant effects or critical hazards.
Target organs: Contains material which may cause damage to the following organs: upper respiratory tract, eyes.

Over-exposure signs/symptoms
Inhalation: Adverse symptoms may include the following: respiratory tract irritation coughing.
2. Hazards identification

| Ingestion | No specific data. |
| Skin      | No specific data. |
| Eyes      | Adverse symptoms may include the following: pain or irritation, watering, redness |

**Medical conditions aggravated by over-exposure**

Pre-existing disorders involving any target organs mentioned in this MSDS as being at risk may be aggravated by over-exposure to this product.

3. Composition/information on ingredients

<table>
<thead>

<tr>
<td>Poly(oxy-1,2-ethanediyl), α,α’-[{(1-methylethylidene)di-4,1-phenylene]bis[ω-{(2-methyl-1-o xo-2-propen-1-yl)oxy}-</td>
<td>41637-38-1</td>
<td>30-60</td>
</tr>
</tbody>
</table>

There are no additional ingredients present which, within the current knowledge of the supplier and in the concentrations applicable, are classified as hazardous to health or the environment and hence require reporting in this section.

4. First aid measures

**Eye contact**

No special measures are required. In case of contact with eyes, rinse immediately with plenty of water. Get medical attention if symptoms occur.

**Skin contact**

No special measures required. In case of contact, immediately flush skin with plenty of water. Get medical attention if symptoms occur.

**Inhalation**

Move exposed person to fresh air. If not breathing, if breathing is irregular or if respiratory arrest occurs, provide artificial respiration or oxygen by trained personnel. Loosen tight clothing such as a collar, tie, belt or waistband. Get medical attention immediately.

**Ingestion**

Wash out mouth with water. If material has been swallowed and the exposed person is conscious, give small quantities of water to drink. Stop if the exposed person feels sick as vomiting may be dangerous. Get medical attention if adverse health effects persist or are severe.

**Protection of first-aiders**

In case of major fire and large quantities: No action shall be taken involving any personal risk or without suitable training. If it is suspected that fumes are still present, the rescuer should wear an appropriate mask or self-contained breathing apparatus. It may be dangerous to the person providing aid to give mouth-to-mouth resuscitation.

**Antidote information**

<table>

Notes to physician

In case of inhalation of decomposition products in a fire, symptoms may be delayed. The exposed person may need to be kept under medical surveillance for 48 hours.
### 5. Fire-fighting measures

**Flammability of the product**
- No specific fire or explosion hazard.

**Extinguishing media**
- **Suitable**: In case of fire, use water, dry chemical powder or carbon dioxide.
- **Not suitable**: None known.

**Special exposure hazards**
- In case of major fire and large quantities: Promptly isolate the scene by removing all persons from the vicinity of the incident if there is a fire. No action shall be taken involving any personal risk or without suitable training.

**Hazardous thermal decomposition products**
- Decomposition products may include the following materials:
  - Carbon dioxide
  - Carbon monoxide
  - Nitrogen oxides
  - Metal oxide/oxides

**Special protective equipment for fire-fighters**
- Fire-fighters should wear appropriate protective equipment and self-contained breathing apparatus (SCBA) with a full face-piece operated in positive pressure mode.

### 6. Accidental release measures

**Personal precautions**
- Low release. For professional use only. Handling of product in very small amounts or in situations where release is highly unlikely.

**Environmental precautions**
- Low release. Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers. Inform the relevant authorities if the product has caused environmental pollution (sewers, waterways, soil or air).

**Methods for cleaning up**
- **Small spill**: Small Quantity. For professional use only. Absorb with an inert material and place in an appropriate waste disposal container.

- **Large spill**: Small Quantity. For professional use only. Absorb with an inert material and place in an appropriate waste disposal container.

### 7. Handling and storage

**Handling**
- No special measures are required for small quantities under normal and intended conditions of product use. For professional use only. Put on appropriate personal protective equipment (see Section 8). Handle with care and dispose in a safe manner.

**Storage**
- Store between the following temperatures: 2 to 8°C (35.6 to 46.4°F). Store in accordance with local regulations. Store in original container protected from direct sunlight in a dry, cool and well-ventilated area, away from incompatible materials (see Section 10) and food and drink. Keep container tightly closed and sealed until ready for use. Containers that have been opened must be carefully resealed and kept upright to prevent leakage. Do not store in unlabeled containers. Use appropriate containment to avoid environmental contamination.

Form: [a] Inhalable fraction [b] Respirable fibers: length greater than 5 µm; aspect ratio equal to or greater than 3:1 as determined by the membrane filter method at 400-450X magnification (4-mm objective) phase contrast illumination. [c] Fibres [d] Fibres, total particulate [e] Inhalable [f] Fibre [g] Inhalable fraction: means that size fraction of the airborne particulate deposited anywhere in the respiratory tract and collected during air sampling with a particle size-selective device that, (a) meets the ACGIH particle size-selective sampling criteria for airborne particulate matter, and (b) has the cut point of 100 µm at 50 per cent collection efficiency. [h] Respirable fibres: length > 5 µm; aspect ratio ≥ 3:1, as determined by the membrane filter method at 400-450 times magnification (4-mm objective), using phase-contrast illumination. [i] RESPIRABLE FIBRES (other than respirable asbestos fibres): Objects, other than respirable asbestos fibres, longer than 5 µm, having a diameter of less than 3 µm and a ratio of length to diameter of more than 3 : 1. [j] Total dust.

Consult local authorities for acceptable exposure limits.

**Recommended monitoring procedures**: If this product contains ingredients with exposure limits, personal, workplace atmosphere or biological monitoring may be required to determine the effectiveness of the ventilation or other control measures and/or the necessity to use respiratory protective equipment. Reference should be made to appropriate monitoring standards. Reference to national guidance documents for methods for the determination of hazardous substances will also be required.

**Engineering measures**: No special measures are required for small quantities under normal and intended conditions of product use.

**Hygiene measures**: No special measures are required for small quantities under normal and intended conditions of product use.

**Personal protection**

**Respiratory**: No special measures are required for small quantities under normal and intended conditions of product use.

**Hands**: Chemical-resistant, impervious gloves complying with an approved standard should be worn at all times when handling chemical products if a risk assessment indicates this is necessary. Considering the parameters specified by the glove manufacturer, check during use that the gloves are still retaining their protective properties. It should be noted that the time to breakthrough for any glove material may be different for different glove manufacturers. In the case of mixtures, consisting of several substances, the protection time of the gloves cannot be accurately estimated.

**Eyes**: Safety eyewear complying with an approved standard should be used when a risk assessment indicates this is necessary to avoid exposure to liquid splashes, mists or dusts. If contact is possible, the following protection should be worn, unless the assessment indicates a higher degree of protection: chemical splash goggles.

**Skin**: No special measures are required for small quantities under normal and intended conditions of product use.
8. Exposure controls/personal protection

Environmental exposure controls: No special measures are required for small quantities under normal and intended conditions of product use.

10. Stability and reactivity

Chemical stability: The product is stable.
Conditions to avoid: Protect from sunlight. Initiators. Avoid excessive heat.
Incompatible materials: Reactive or incompatible with the following materials: oxidizing materials and reducing materials. Peroxide.
Hazardous decomposition products: Under normal conditions of storage and use, hazardous decomposition products should not be produced.
Possibility of hazardous reactions: Under normal conditions of storage and use, hazardous reactions will not occur.

11. Toxicological information

Acute toxicity: Not available.

Conclusion/Summary: Based on the criteria of the protocol, this product is considered non-cytotoxic per ISO 10993-5.

Chronic toxicity: Not available.

Irritation/Corrosion: Not available.

5/5/2014.  Canada  5/8
11. Toxicological information

**Skin**
Based on the criteria of the protocol, this product is considered a negligible irritant per ISO 10993-10.

**Sensitizer**
Not available.

**Conclusion/Summary**
Not available.

**Skin**
Kligman score: Grade I (weak sensitizer)

**Carcinogenicity**
Not available.

**Mutagenicity**
Not available.

**Teratogenicity**
Not available.

**Reproductive toxicity**
Not available.

12. Ecological information

**Ecotoxicity**
This material may cause long lasting harmful effects to aquatic life.

**Aquatic ecotoxicity**
Not available.

**Persistence/degradability**
Not available.

**Partition coefficient: n-octanol/water**
Not available.

**Bioconcentration factor**
Not available.

**Mobility**
Not available.

**Toxicity of the products of biodegradation**
Not available.

**Other adverse effects**
No known significant effects or critical hazards.

13. Disposal considerations

**Waste disposal**
The generation of waste should be avoided or minimized wherever possible. Disposal of this product, solutions and any by-products should at all times comply with the requirements of environmental protection and waste disposal legislation and any regional local authority requirements.

Disposal should be in accordance with applicable regional, national and local laws and regulations.

Refer to Section 7: HANDLING AND STORAGE and Section 8: EXPOSURE CONTROLS/PERSONAL PROTECTION for additional handling information and protection of employees.
14. Transport information

**TDG/IMDG/IATA**: Not regulated.

15. Regulatory information

**United States inventory (TSCA 8b)**: Not determined.

**WHMIS (Canada)**: Class D-2B: Material causing other toxic effects (Toxic).

**Canadian lists**

- **Canadian NPRI**: None of the components are listed.
- **CEPA Toxic substances**: None of the components are listed.

**Canada inventory**: All components are listed or exempted.

**International regulations**

- **Australia inventory (AICS)**: Not determined.
- **China inventory (IECSC)**: All components are listed or exempted.
- **Japan inventory**: Not determined.
- **Korea inventory**: Not determined.
- **Malaysia Inventory (EHS Register)**: Not determined.
- **New Zealand Inventory of Chemicals (NZIoC)**: Not determined.
- **Philippines inventory (PICCS)**: Not determined.
- **Taiwan inventory (CSNN)**: Not determined.

This product has been classified in accordance with the hazard criteria of the Controlled Products Regulations and the MSDS contains all the information required by the Controlled Products Regulations.

**Chemical Weapons Convention List Schedule I Chemicals**: Not listed

**Chemical Weapons Convention List Schedule II Chemicals**: Not listed

**Chemical Weapons Convention List Schedule III Chemicals**: Not listed

**CEPA Toxic substances**: None of the components are listed.

16. Other information

**Label requirements**: CAUSES RESPIRATORY TRACT AND EYE IRRITATION. CONTAINS MATERIAL THAT MAY CAUSE TARGET ORGAN DAMAGE, BASED ON ANIMAL DATA.

**Hazardous Material Information System (U.S.A.)**

- **Health**: 2
- **Flammability**: 0
- **Physical hazards**: 0

Caution: HMIS® ratings are based on a 0-4 rating scale, with 0 representing minimal hazards or risks, and 4 representing significant hazards or risks. Although HMIS® ratings are not required on MSDSs under 29 CFR 1910.1200, the preparer may choose to provide them. HMIS® ratings are to be used with a fully implemented HMIS® program. HMIS® is a registered mark of the National Paint & Coatings Association (NPCA). HMIS® materials may be purchased exclusively from J. J. Keller (800) 327-6868.
