Ordering C.O.M., C.O.L., and C.O.V.

- Bonduel, Green Bay, Ontario, and Tupelo  
  - Shipping Location  
  - Refer to KI Terms & Conditions document or visit ki.com.
Ordering C.O.M., C.O.L., and C.O.V.
Bonduel, Green Bay, Ontario, and Tupelo

How to Specify C.O.M. Upholstery
Textile designs often have intricate patterns. Not all individuals will interpret fabric direction in the same manner.

As a standard procedure, KI cuts fabrics off the roll in a horizontal fashion as shown in Diagram A at the right. By cutting in this fashion, most waste is eliminated. Our requirements for yardage in this book are based on this type of cutting. When directional or patterned fabrics are used, they often require more yardage than solid colors.

C.O.M., C.O.L. and C.O.V. Testing
KI will require for testing actual yardage to upholster one chair. The testing requirements depend on which chair you have selected on your order.

Test samples will be applied to the order and will be held for 6 months if needed. After 6 months, the sample can no longer be applied to your order. For all products to be tested, send test samples for approval to:

KI
Attn: C.O.M. Specialist
1687 Westminster Drive, Gate 3
Green Bay WI 54302

To expedite the procedure, attach a copy of the “C.O.M. Information Form” on this page.

All C.O.M., C.O.L. and C.O.V. must be labeled on this page.

Please see information below and check the appropriate box.

☐ Submitted for testing.
☐ Test approved. Submitted for production.

Purchase Order Number

KI Acknowledgement Number

In all instances, send this form to the C.O.M. Specialist.

Intricate Patterns
In the event of specific requirements for positioning of intricate patterns or pattern repeats on seats and backsrests, provide a sketch noting requirements, as in Diagram B, along with materials for testing, and with the order.

Diagram B

Excess Upholstery Material
KI will dispose of excess upholstery material at the time of shipment unless expressly requested to return it with the product shipment.

Cancelled or Changed Orders
KI assumes no responsibility for extra C.O.M., C.O.L. or C.O.V. material due to a change of upholstery or cancellation of an order. It is the customer’s responsibility to arrange for return of this material.

Treated Materials
If C.O.M. requires processing such as Scotchgard® or acrylic backing, it often shrinks. To prevent delays in delivery or back ordering due to shrinkage, please have your processor remeasure after processing and assure adequate yardage shipment.

Split Orders
If a portion of the shipment which does not require C.O.M., C.O.L. or C.O.V. applications is to be processed and shipped early, KI will enter the order immediately at your request. These split shipments are subject to minimum order changes.

Contact the C.O.M. Specialist at 1-800-424-2432, ext. 2707, with questions or to verify a split order.

C.O.M., C.O.L. and C.O.V. Production
Customers’ fabrics and leathers must be approved prior to acceptance for production. Upon test approval, a 1’ square sample swatch of upholstery material must accompany the order. KI assumes no responsibility for wear, defects or performance of customer’s own fabrics, vinyl or leather. C.O.M., C.O.L. and C.O.V. orders are available on a deferred delivery basis.

Orders for production of C.O.M., C.O.L. and C.O.V. upholstered products are not scheduled for processing until upholstery material is received. Upon receipt, KI will provide an acknowledgement and an estimated shipping date.

C.O.M., C.O.L and C.O.V. Information Form
A copy of this form should accompany test requests and production orders. Please fill it out completely, and, if your order has been acknowledged, provide the acknowledgement number.
Ordering C.O.M., C.O.L., and C.O.V.

Specifications

Frames
Duplex nickel chrome plated or powder coated .75 x 1.5" o.d. x 15-gauge elliptical steel tubing.

Seat and Back
Solid, molded, 1/4" thick, ABS plastic attached to frame with screws.

Tops
Solid, molded ABS plastic with comfort curve along back edge, integral pencil grooves on each side. Glue-in, high-pressure, vertical-grade laminate insert is bonded into recessed area on desk top and has a shallow transition between laminate and the ABS edge.

Glides
Glides are made of two components—the glide body and the glide cap. The glide body is made of heavy-duty nylon plastic for strength and durability. Front and rear nylon glides feature a molded plastic bottom with a flat contour for better weight distribution. The bottom is molded to the glide body for a secure bond. Rear steel glides consist of a zinc cap attached to the bottom of the glide body. Felt caps are also available for the bottom of the nylon glides and are field replaceable. The rear glides are angled to prevent tipping and act as a wallsaver. (Note: Specification of the swivel glides will increase the height of the product by 1"). A felt cap can be added to either the steel or nylon glide for enhanced floor protection. Steel glides are recommended for carpet floors and felt caps are recommended for tile floors.

Chair Handle
Ergonomically designed handles are located behind seat back. Made of black nylon.

Book Box
Optional solid, molded ABS plastic book box installs by sliding into integral steel track on underside of desk. Book box can be used as storage tote when removed from the unit. Stacks up to ten high. Can be used as a computer keyboard tray when in the extended position. Can be fitted with optional mouse tray.

Mouse Tray
Arced piece of solid, molded ABS plastic can be added to optional book box when used as keyboard tray. Slides side-to-side for either left- or right-handed use.

Package Code Explanation
BLW: Blanket Wrapped – Product is wrapped in shipping blankets.
PLT: Pallet – Product is protected, banded to pallet and stretch wrapped.
RCK: Racked – Product is protected, banded to wooden rack and stretch wrapped.
TSL: Truck Stack Load – Product is protected and braced in trailer.
### Intellect® Book Box (EBB)

- **Features**
  - ABS seat and back
  - ABS construction
  - Solid top
  - Laminate top
  - 15-gauge elliptical steel frame

- **Overall Dimensions**
  - Width: 20" 18"
  - Depth: 19" 6"
  - Height: 4-1/4"

### Intellect® Mouse Tray (EMT)

- **Features**
  - ABS seat and back
  - ABS construction
  - Solid top
  - Laminate top
  - 15-gauge elliptical steel frame

- **Overall Dimensions**
  - Width: 20" 18"
  - Depth: 19" 6"
  - Height: 4-1/4"
General Guideline for Glide Selection

The following information is based on a combination of testing and experience. Due to factors beyond our control, KI is presenting this information strictly as a general guideline to assist our customers in selecting the best glide for their situation. It is up to the customer to determine which glide will perform best for their application based upon their site conditions, requirements, and the direction of the flooring manufacturer. Sample glides are available upon request to aid the customer in their selection (contact Customer Service).

Price list glide choice of: Steel, Grey Bottom (Nylon), Swivel Nylon, Swivel Steel, Swivel Felt for Intellect

</tbody>
</table>

★★ = Best Performance  ★ = Acceptable Performance  NR = Not Recommended

Steel glides are not recommended for light colored floors.

The following factors affect the performance of any glide:

- Floor Quality – Materials and manufacturing processes for a specific floor type can vary considerably depending upon the manufacturer and product grade. Floor grades with higher stain and abrasion resistance will typically perform better.
- Floor Preparation – The quality and frequency of application of the floor finish will significantly affect the amount of wear. A high quality finish will act as a lubricant between the chair and floor to minimize wear.
- Floor Maintenance – Any glide material will leave marks if the floor is not properly cleaned. The use of walk-off rugs near entrances, along with frequent cleaning of the floors, will significantly reduce damage to floors. Steel glides should not be exposed to wet or damp floors.
- Damaged Glides – Periodic inspection of glides is critical to preventing floor damage. Glides that are damaged, worn or have embedded debris should be replaced immediately. Felt caps wear faster and should be replaced frequently.

HOW TO ORDER
Indicate the following information on order form:
1. Quantity of each item.
2. Model number, including options. See "How To Build a Model Number".
3. Any special service required.

Note: • The □ indicates that a choice is required.
• The absence of the □ indicates that no choice is required.
• Alpha-numeric characters in place of □ indicate that no other alternatives are available.

HOW TO BUILD A MODEL NUMBER
Cartoned upcharges: (Do not add if CTN is only option.)

1. Select basic model.
2. Select frame color.
   Refer to the Product Color Options page in this price list.
   See pricing column for chrome upcharge.
3. Select seat and back color.
   Refer to the Product Color Options page in this price list.
4. Select glide option.
   - GG - Black w/grey bottom glide
   - SG - Nickel-plated steel glide; add $1
   - SNG - Swivel nylon glide
   - SS - Swivel steel glide
   - SSF - Swivel Solo felt glide; add $2
5. Select packaging code.
   - CTN - Cartoned; add $9
   - RCK - Racked

# HOW TO ORDER

Indicate the following information on order form:
1. Quantity of each item.
2. Model number, including options. See “How To Build a Model Number”.
3. Any special service required.

Note: • The □ indicates that a choice is required.
• The absence of the □ indicates that no choice is required.
• Alpha-numeric characters in place of □ indicate that no other alternatives are available.

## HOW TO BUILD A MODEL NUMBER

1. Select basic model.
2. Select frame color. Refer to the Product Color Options page in this price list.
3. Select top color. Refer to the Product Color Options page in this price list.
4. Select surface finish. Refer to the Product Color Options page in this price list.
5. Select glide option.

- CTR - Cartoned; add $10
- PLT - Pallet

### Features

**Standard Top Desk**
- Top constructed of ABS plastic with glue-in (matching) laminate insert
- Frame constructed of 15-gauge elliptical steel tubing
- Stacks four high
- Anti-tip glides
- Glides and tube end caps are black
- Accepts optional book box
- Adjustable desk height range is 24”-30” in one-inch increments
- Lower leg is always chrome

**High Pressure Laminate Top Desk**
- Top constructed of ABS plastic with glue-in laminate insert

SPECIFICATIONS

Shell
One-piece contoured shell made of static-free, high-impact polypropylene. Colorfastness ensured through complete color impregnation throughout the molded part. Strength and durability shall be assured through an engineered internal structural cavity which eliminates the need for unsightly ribs on the back of the shell. Rolled edges for comfort and strength. Textured front and back. Wide, ergonomic handle molded into chair back for ease of mobility. Fastens to frame with six screws. Upholstered chairs have partially exposed polypropylene surfaces. Fabric is upholstered over 9/16” foam on the back and seat and fastened to an inner shell with screws.

Frames
Cantilever Chair, 4-Leg Chair, 4-Leg Chair with Casters, Music Chair, and Cafe Stool. 7/8” x 1 1/2” O.D. x 15-gauge elliptical steel tubing welded to a 14-gauge steel plate. Frame shall be duplex nickel chrome plated or powder coated after all welding processes are complete.

Task Chair and Stool
The frame is constructed of a 12-gauge base plate powder coated black with a lever-activated pneumatic cylinder for seat height adjustment. Available with a seat tilt mechanism on armless chairs only. Tilt mechanism includes a tension adjustment knob and a tilt lock on the seat height adjustment lever.

Book Rack (under seat)
External framework of 5/16” diameter solid wire rod attached to the chair frame with 4 screws. Cross braces of 5/16” diameter solid wire rod welded between the external framework. Book racks offered assembled at factory (cartoned ‘CTN’ only). Chairs with book racks cannot stack and do not include stacking bumpers. Chrome only.

Glides
Swivel type polished zinc-plated steel, nylon, or felt solo glides available. (Note: Felt Solo glides will increase the height of the product by 1/4”.) Refer to the Glide Selection Guidelines for recommendations by floor type.

Casters - Task Chair, Task Stool, and 4-Leg Chair with Casters
Double wheels of high-impact thermoplastic. High-impact plastic frame. Black finish only.

Carpet Casters
Double wheels of soft plastic. High-impact plastic frame. Black finish only.

Pneumatic Height Adjustment - Task Chair and Stool
Lever-activated pneumatic cylinder enables seat height adjustment from 16-1/2” to 21-1/2” (large chair), 14” to 16-1/2” (medium chair), and 20-1/4” to 30-3/4” (stool).

Base
Task Chair
24” injection-molded, glass-reinforced nylon 5-blade base.

Task Stool
26” injection-molded, glass-reinforced nylon 5-blade base.

Armrest - Task Chair and Stool
A tubular steel frame supports self-skinning urethane armrests. The support is bolted to the seat underside. Armrest paint color and top pad are always black. (Field installable)

INFORMATION

C.O.M. Testing and Production Requirements
Not all materials are suitable for upholstering this product. A 1 yd. x 54” sample
In this section, the text is divided into various categories such as Warranty, Fabric Disclaimer, Book Box and Book Rack Disclaimer, and General Information. Each category contains specific instructions and details relevant to their respective topics. For instance, the Warranty section refers to the KI Terms & Conditions document or the ki.com website for more information. The Fabric Disclaimer highlights the importance of submitting and approving samples prior to ordering. The Book Box and Book Rack Disclaimer caution against the use of book boxes or book racks on desks, suggesting that adjusting leg clearance or choosing the next larger size desk or adjustable leg desk may be better solutions. The General Information section provides dimensions, code explanations, and other relevant data for various items such as chairs and desks.
### SPECIFICATIONS

**Shell**
One-piece contoured shell made of static-free, high-impact polypropylene. Colorfastness ensured through complete color impregnation throughout the molded part. Strength and durability shall be assured through an engineered internal structural cavity which eliminates the need for unsightly ribs on the back of the shell. Rolled edges for comfort and strength. Textured front and back. Wide, ergonomic handle molded into chair back for ease of mobility. Fastens to frame with six screws. Upholstered chairs have partially exposed polypropylene surfaces. Fabric is upholstered over 9/16" foam on the back and seat and fastened to an inner shell with screws.

C.O.M. Testing and Production Requirements

Not all materials are suitable for upholstering this product. A 1 yd. x 54” sample must be submitted and approved prior to acceptance of an order. If the fabric is directional in pattern or weave, the direction must be indicated on the submitted sample, and additional yardage may be requested.

Test samples must be sent to:

KI Attn: C.O.M. Specialist 1687 Westminster Drive - Gate 3 Green Bay, WI 54302

Fabric Disclaimer

Fabric will be applied as swatched by the fabric manufacturer. Fabric that is required to be applied differently than is swatched will need a Special Cost Request written specifying the direction the fabric is to be applied.

Frame shall be duplex nickel chrome plated or powder coated after all welding processes are complete.

Combination Desk
0.75” x 1.5” O.D. x 15-gauge elliptical steel tubing welded to a 12-gauge steel plate. Frame shall be duplex nickel chrome plated or powder coated after all welding processes are complete. Legs fasten to top with K50 2.24 x 13mm Torx head screws.

Fixed Height - 4-Leg Desk and Trapezoid Desk
0.75” x 1.5” O.D. 15-gauge elliptical steel tubing welded to a heavy 11-gauge steel plate. Frame shall be duplex nickel chrome plated or powder coated after all welding processes are complete. Legs fasten to top with K50 2.24 x 13mm Torx head screws. Tripod desks have a 7/16” diameter steel wire crossbrace welded to the 3 legs.

Adjustable Height - Cantilever Desk, Sit/Stand Desk and ADA Cantilever Desk
0.75” x 1.5” OD 15-gauge elliptical steel tube welded to a heavy 11-gauge steel mounting bracket. Telescoping lower section in bright chrome finish; locks with 1/4” screw in 1” increments. Adjustable height range is 24”-30”; Sit/Stand height range is 29”-41” and ADA height range is 28”-34”. Legs fasten to top with K50 2.24 x 13mm Torx head screws.

Book Basket (under desk)
Chrome plated 7mm dia. solid steel wire attached to underside of top with eight K50 2.24 x 13mm Torx head screws.

Book Box (under desk)
Molded thermoplastic polypropylene installs quickly to underside of the top with nine K50 2.24 x 13mm Torx head screws. Translucent finish helps provide a safe environment while allowing for some degree of personal privacy. Molded-in pencil tray keeps items conveniently inside book box within easy reach, not on the floor or in the back of the book box.

Book box for Cantilever and Two-Student desks measures 16”D x 19-1/2”W x 3-1/2”H and is available in 5 standard poly colors plus translucent. The book box for 4-Leg desks measures 14”D x 16”W x 4”H and is

### Cantilever Desk, 4-Leg Desk, Two Student Desk, Tripod Desk, Combination Desk, and Double Entry Desk

Solid, molded thermoset plastic with pencil groove or high-density particleboard core covered with .02” phenolic backing sheet and .73” polypropylene edge. Worksurfaces shall have comfort curve on user side and 2-3/8” radius corners. Hard plastic top is 5/8” thick and the laminate top is 3/4” thick. Rectangle tops measure 19” x 26” and the trapezoid tops measure 23-1/2” x 32”. Linear Tripod tops measure 27-2/5” x 27-2/5” x 36-5/8”.

ADA tops measure 36-1/2” x 20” and the hard plastic ADA tops do not have a comfort curve or pencil groove.

Two Student Desk top measures 19” x 60” and is only available in 3/4” laminate. Two Student Desk has two comfort curves. Contour Tripod Desk top measures 30-1/2” x 31-3/8” x 37-1/5” and is only available in 3/4” laminate. Cantilever and 4-Leg Desks have choice of curved or straight front hard plastic top. Straight front tops are recommended when desks are back to back or when stacking flat on the desk is a requirement.

### Tablet Arm Chair

Tablet boards are 5/8” 11-ply plywood core with high-pressure laminate with clear coat edge and plain backer sheet. Effective working surfaces:

- Standard tablet arm = 14” x 11”
- Laptop tablet arm = 18” x 14”
- G2-tablet arm = 10” x 13-1/2”

General Guideline for Glide Selection

The following information is based on a combination of testing and experience. Due to factors beyond our control, KI is presenting this information strictly as a general guideline to assist our customers in selecting the best glide for their situation. It is up to the customer to determine which glide will perform best for their application based upon their site conditions, requirements, and the direction of the flooring manufacturer. Sample glides are available upon request to aid the customer in their selection (contact Customer Service).

Price list glide choice of: Nylon, Steel or Felt

</tr>
<tr>
<td>Felt</td>
<td>NR</td>
<td>★</td>
<td>NR</td>
</tr>
</tbody>
</table>

★★ = Best Performance ★ = Acceptable Performance NR = Not Recommended

Steel glides are not recommended for light colored floors.

The following factors affect the performance of any glide:

- Floor Quality – Materials and manufacturing processes for a specific floor type can vary considerably depending upon the manufacturer and product grade. Floor grades with higher stain and abrasion resistance will typically perform better.
- Floor Preparation – The quality and frequency of application of the floor finish will significantly affect the amount of wear. A high quality finish will act as a lubricant between the chair and floor to minimize wear.
- Floor Maintenance – Any glide material will leave marks if the floor is not properly cleaned. The use of walk-off rugs near entrances, along with frequent cleaning of the floors, will significantly reduce damage to floors. Steel glides should not be exposed to wet or damp floors.
- Damaged Glides – Periodic inspection of glides is critical to preventing floor damage. Glides that are damaged, worn or have embedded debris should be replaced immediately. Felt caps wear faster and should be replaced frequently.

HOW TO ORDER
Indicate the following information on order form:
1. Quantity of each item.
2. Model number, including options. See "How To Build a Model Number".
3. Any special service required.

Note: • The □ indicates that a choice is required.
      • The absence of the □ indicates that no choice is required.
      • Alpha-numeric characters in place of □ indicate that no other alternatives are available.

HOW TO BUILD A MODEL NUMBER

A. Select basic model.
B. Select frame color. Refer to the Product Color Options page in this price list.
C. Select shell color. Refer to the Product Color Options page in this price list.
D. Select glide option.
   - NG - Nylon glides
   - SG - Steel glides
   - SF - Felt Solo Glide; add $2
E. Select packaging code.
   - CTN - Cartoned; add $5
   - RCK - Racked
   Cartoned upcharges: (Do not add if CTN is only option.)

IWC18 - $5
Intellect Wave® Classroom Furniture (Freight Excluded)

## UPHOLSTERY INFORMATION

**C.O.M. Upholstery**

C.O.M. requirement is 5/8 yard per chair for seat only and 1 yard per chair for seat and back of 54" wide non-directional fabric. For complete information on ordering C.O.M., see "Ordering C.O.M., C.O.V. and C.O.L." section.

## OPTIONS

**California TB133 Fire Safety Code**

The above seating products can be manufactured using the appropriate flame-retardant materials for compliance to California Technical Bulletin 133. Add 'FR' to end of model number.

- Model=Polypropylene
- Added Lead Time=none
- Added List Price=$22

**Model=Upholstered Seat Only**

- Added Lead Time=none
- Added List Price=$67

Upholstered Seat/Back models NOT TB133 approved.

## How To Order

Indicate the following information on order form:

1. Quantity of each item.
2. Model number, including options. See "How To Build A Model Number".
3. Any special service required.

### Note:
- The □ indicates that a choice is required.
- The absence of the □ indicates that no choice is required.
- Alpha-numeric characters in place of □ indicate that no other alternatives are available.

### How To Build A Model Number

1. Select basic model.
2. Select book storage option.
   - BR - Book basket; add $29
   - BB - Book box; add $23
   - BBRH - Book basket & bag hook; add $37
   - BBBH - Book box & bag hook; add $32
   - NB - No book storage
3. Select book box color. Refer to the **Product Color Options** page in this price list. Only book box has color choice. If no color selected, book box will be translucent.
4. Select glide option.
   - NG - Nylon glides
   - SG - Steel glides
   - SF - Felt Solo Glide; add $2
5. Select top front shape (user side).
   - CFT - Curved front top
   - SFT - Straight front top; add $15
6. Select frame color. Refer to the **Product Color Options** page in this price list.
7. Select edge finish. Refer to the **Product Color Options** page in this price list.
8. Select surface finish. Refer to the **Product Color Options** page in this price list.

### SPECIFICATIONS

**CHAIRS - Posture Series 10**

**Frame - Fixed Height**

19-gauge, 1” o.d., non-swaged steel tubing.

**Frame - Adjustable Height**

Chrome-plated 18-gauge, 7/8” o.d. tube with 5 holes for 4” of adjustment via Phillips head screws.

**Seat & Back**

Contoured 5/8” thick, solid, molded thermoset plastic attached to frame with screws.

**Glides - Posture Chair Series 10**

Swivel-type steel glides (nylon optional).

**Underseat Book Rack-Series 10**

Chrome plated 9.5mm dia. solid steel wire with four solid 8mm dia. wire crossbraces. Attached with two 3/16” high strength steel rivets in rear legs. Measures 13” x 16”.

**Underseat X-Bracing Series 10**

18-gauge, 1/2” o.d. tubing.

**DESKS - Series 20, 30, 40, and 60**

**Frame - Fixed Height**

Chrome-plated 18-gauge, 1” o.d., non-swaged steel tubing with 18-gauge, 3/4” o.d. u-shaped lower brace welded to legs.

**Frame - Adjustable Height**

Chrome-plated 7/8” x 18-gauge tube with 7 holes for 6” of adjustment via Phillips head screws.

**Top**

Solid, molded thermoset plastic with rounded edges & pencil groove or high-density particleboard core covered with .030” high-pressure laminate top and .020” phenolic backing sheet with black bullnose edge. 18” x 24” x 5/8”. Study ADA (IL40) top measures 20” x 36-1/2” x 5/8”. Trapezoid (IL60) top measures 21” x 33” x 5/8”.

**Glides**

Swivel-type steel glides (nylon optional).

**Open-Front Book Box - Series 20**

One-piece, 20-gauge cold-rolled steel with embossed sides and bottom. 22” x 15-1/4” x 4-3/4”

**Lift-Lid Book Box - Series 30**

One-piece, 20-gauge cold-rolled steel with integral steel pencil tray. Full-length hinge. Two self-balancing lid supports. Interior dimensions = 22-1/4” x 15-1/4” x 5”

**Book Basket - Series 40 & 60**

Chrome plated 7mm dia. solid steel wire attached to underside of top with eight #10 x 5/8” SMPTH - Zinc screws.

**Translucent Book Box - Series 40 & 60**

Optional solid, molded thermoplastic polypropylene book box. Translucent finish helps provide safe environment while allowing for some degree of personal privacy. Molded-in pencil tray keeps items conveniently inside book box within easy reach, not on the floor or in the back of the book box. Measures 15” wide, 14” deep, and 4” high.

**COMBINATION DESK - Series 56, 61**

Frame

Chrome-plated 16-gauge, 1” o.d. side and back. Legs are 16-gauge, 1-1/4” o.d. Series 61 and Series 66 have a support brace of chrome-plated 16-gauge, 1” o.d. steel tubing.

**Seat & Back**

Contoured 5/8” thick, solid, molded thermoset plastic attached to frame with screws.

**Top**

Solid, molded thermoset plastic with rounded edges with pencil groove or high-density particleboard core covered with .030” high-pressure laminate top and .020” phenolic backing sheet with black bullnose edge. 18” x 24” x 5/8”. Angled or flat options.

**Glides**

Swivel-type steel glides (nylon optional).

**Underseat Book Basket**

Chrome plated 7mm dia. solid steel wire attached with four 3/16” high strength steel rivets to underside of chair frame. 11” L x 12” W x 8-1/2” H.
DOUBLE-ENTRY SLED BASE DESK - Series 58

Base Frame
Chrome-plated 11-gauge, 1-1/8" o.d. steel tubing.

Back Frame
Chrome-plated 16-gauge, 1" o.d. steel tubing.

Seat & Back
Contoured 5/8" thick, solid, molded thermoset plastic attached to frame with screws.

Top
Solid, molded thermoset plastic with rounded edges with pencil groove or high-density particleboard core covered with .030 high-pressure laminate top and .020 phenolic backing sheet with black bullnose edge. 18" x 24" x 5/8".

Glides
Steel or nylon glides available (4 per unit).

Underseat Book Basket
Chrome plated 7mm dia. solid steel wire attached with four 3/16" high strength steel rivets to underside of chair frame. 11"L x 12"W x 8.5"H.

TABLET ARM CHAIR - Series 90

Frame
Chrome-plated 18-gauge, 1" o.d. steel tubing. Tablet arm support frame is 16-gauge, 1" o.d. steel tubing.

Seat and Back
Contoured 5/8" thick, solid, molded thermoset plastic attached to frame with screws.

Tablet Arm
Contoured 5/8" thick, solid, molded thermoset plastic attached to frame with screws. Left- or right-handed units. 14" x 19" x 26".

Glides
Swivel-type steel glides (nylon optional).

Underseat Book Rack
Chrome plated 9.5mm dia. solid steel wire with four solid 8mm dia. wire crossbraces. Attached with two 3/16" high strength steel rivets in rear legs. Measures 13" x 16".

Package Code Explanation
BLW: Blanket Wrapped – Product is wrapped in shipping blankets.
PLT: Pallet – Product is protected, banded to pallet and stretch wrapped.
RCK: Racked – Product is protected, banded to wooden rack and stretch wrapped.
TSL: Truck Stack Load – Product is protected and braced in trailer.

Features

- Thermoset plastic seat and back
- Thermoset plastic top
- 18-gauge steel frame

### SPECIFICATIONS

**STOOL - Series ST**

**Frame**

Two chrome-plated 18-gauge, 1" o.d. steel tubing leg sections are crossed and welded to 7-gauge, 5-3/4" square plate. A footrest ring made of 18-gauge, 5/8" o.d. steel tubing is welded to each leg.

**Seat**

Contoured 5/8" thick, solid, molded thermoset plastic attached to frame with screws. 13" diameter.

**Glides**

Swivel-type steel glides. Optional swivel-type nylon glides.
General Guideline for Glide Selection

The following information is based on a combination of testing and experience. Due to factors beyond our control, KI is presenting this information strictly as a general guideline to assist our customers in selecting the best glide for their situation. It is up to the customer to determine which glide will perform best for their application based upon their site conditions, requirements, and the direction of the flooring manufacturer. Sample glides are available upon request to aid the customer in their selection (contact Customer Service).

★★★ = Best Performance
★★ = Acceptable Performance
NR = Not Recommended

Steel glides are not recommended for light colored floors.

The following factors affect the performance of any glide:

- Floor Quality – Materials and manufacturing processes for a specific floor type can vary considerably depending upon the manufacturer and product grade. Floor grades with higher stain and abrasion resistance will typically perform better.
- Floor Preparation – The quality and frequency of application of the floor finish will significantly affect the amount of wear. A high quality finish will act as a lubricant between the chair and floor to minimize wear.
- Floor Maintenance – Any glide material will leave marks if the floor is not properly cleaned. The use of walk-off rugs near entrances, along with frequent cleaning of the floors, will significantly reduce damage to floors. Steel glides should not be exposed to wet or damp floors.
- Damaged Glides – Periodic inspection of glides is critical to preventing floor damage. Glides that are damaged, worn or have embedded debris should be replaced immediately. Felt caps wear faster and should be replaced frequently.

### Shipping
Ships assembled, FOB Tupelo, MS 38804, freight prepaid. Freight class 125.

Specifications and prices are subject to change without prior notice.
All Terrain® Instructor’s Desk
Unit is based on a 22” deep x 22” wide and 35-1/2” high storage tower. The tower has three adjustable metal shelves and one laminate rollout shelf at the bottom of the storage unit. At the top of the storage tower is a landing pad that is made of 3/4” laminate with 74P edge, this surface is raised 3-3/4” above the top of the storage tower with aluminum side grommets.

A 1-1/4” thick laminate covered surface with a 74P edge is attached to the side of the storage tower on one end and supported by a 3” diameter support leg on the other end of the unit. There is a perforated partial modesty panel that is suspended from the underside of the surface. This modesty panel covers the area from the storage unit to the support leg.

There are three open grommets and one covered grommet for wire management on the storage unit. One grommet is on the top of the storage unit directly below the one covered grommet on the landing pad. The other two grommets are above and below the worksurface on the inside of the desk unit.

All Terrain® Mobile Instructor’s Desk
This unit has an All Terrain® Binder Tower with the lectern option. Also there are four open grommets at the top and bottom of each of the binder’s sides. There is a surface that is attached to the side of the Binder Tower and supported on the other end by an All Terrain® Table leg with casters. There is a perforated partial modesty panel that attaches to the leg and the binder tower.

Locks are standard on the Mobile Instructors’ Desk with steel doors. Locks are not available on doors with acrylic doors. Locks are a high-security double-bit design. One KI break-away key and one standard key are included with each lock.

700 Series Instructor’s Desk
This unit is identical to the standard 700 Series Desk with the following changes. The desk has a peninsula shaped top that overhangs the desks frame to allow for collaboration with students. The frame of the desk has a 12” deep bookcase that is the end panel opposite the peninsula overhang. The bookcase is 30” or 36” wide, which is the depth of the desktop. This unit is non-handed, there is no left or right, the side with the bookcase can be reconfigured after install should the need arise.

WorkZone Instructor’s Desk
The WorkZone Instructors’ desk is based on a standard WorkZone square shoe unit that has a worksurface supporting pedestal (BBF configuration) to support the extended side of the square shoe and a cantilevered frame on the other end. The surface is 1-1/4” thick with a high-pressure laminate.

All Terrain® Binder Tower (Lectern option)
The lectern option can be added to any All Terrain® Binder Tower that has both a landable pad and outriggers. The podium option is an angled landing pad to allow better viewing for the instructor.

All Terrain® binder towers are available in height and drawer combinations to suit personal or shared storage requirements. Binder towers specified without drawers are optimized for book, binder or bin storage. These units include two adjustable shelves. Units may be specified with a single file drawer that can be used for letter files, legal files or bins, or for A4 files. Units with a file drawer include one fixed and one adjustable shelf and may also be specified with pullout pencil drawer.

All Terrain® binder towers may be specified with or without a door, on casters or glides with outriggers. The binder tower always includes a laminate either directly attached or as a raised landing pad. These tops can be specified as bowed front rectangular or as shaped.

Instruct® Classroom Furniture
Specifications

### Instruct Teachers Desk with AV Racks

#### Stand Alone Unit
Unit is based on 22” deep x 22” wide unit with height of 43.375” for a unit that has a flat lectern top and 44.875” for a unit that has a sloped lectern top. The unit has 1 fixed shelf with 6” of clearance above. The back of the shelf is shortened to allow for wire passage. You have the option of getting the unit with either a flat or sloped lectern top which is 3/4” laminate with 74P edge. The sloped top has a pencil retainer. There is 3.75” of clearance under the flat top. Units are available with either 3” casters or 3” AT glides. Outriggers are standard on all units.

There are four covered grommets on the shell. 2 per side. All units have a lockable, removable, vented back panel for access to the computer equipment if the rack option is installed.

Locks are standard on all versions and door types. Two break away keys are provided with each lock. Locks are a high security double-bit design.

#### Teachers Desk Unit
Unit is based on 22” deep x 22” wide unit with height of 43.375” for a unit that has a flat lectern top and 44.875” for a unit that has a sloped lectern top. The unit has 1 fixed shelf with 6” of clearance above. The back of the shelf is shortened to allow for wire passage. You have the option of getting the unit with either a flat or sloped lectern top which is 3/4” laminate with 74P edge. The sloped top has a pencil retainer. There is 3.75” of clearance under the flat top. Units are available with either 3” casters or 3” AT glides. Outriggers are standard on all units.

Desk units are available in an overall length of 60”, 66” or 72”.

There are two covered grommets on the shell. Both are on the side in which there is a work surface. One is above the work surface and one is below. All units have a lockable, removable, vented back panel for access to the computer equipment if the rack option is installed.

Locks are standard on all versions and door types. Two break away keys are provided with each lock. Locks are a high security double-bit design.

All Terrain® Binder Towers (Delivered)
Pencil/Shelf/File with Outriggers

HOW TO ORDER
Indicate the following information on order form:
1. Quantity of each item.
2. Model number, including options. See “How To Build a Model Number”.
3. Any special service required.

Note: The □ indicates that a choice is required.
• The absence of the □ indicates that no choice is required.
• Alpha-numeric characters in place of □ indicate that no other alternatives are available.

HOW TO BUILD A MODEL NUMBER

A Select basic model/edge style.
74P - 74P edge, laminate surface

B Select door front/pull style (hand).
N - None
S4L - Steel/nickel bow tie (hinge right)
S4R - Steel/nickel bow tie (hinge right)
S5L - Steel/satin chrome beveled pull (hinge left)
S5R - Steel/satin chrome beveled pull (hinge right)
S6L - Steel/black beveled pull (hinge left)
S6R - Steel/black beveled pull (hinge right)
S7L - Steel/aluminum metric (hinge left)
S7R - Steel/aluminum metric (hinge right)

C Select base style.
XW - 2 casters bl/wh; 2 glides bl/wh
YW - 3/4" wheels; 3/4" casters
YW - 2 casters bl/wh, 2 glides bl/wh

D Select unit color.
Refer to the Product Color Options page in this price list.

E Select surface finish.
Refer to the Product Color Options page in this price list.

F Select edge color.
Refer to the Product Color Options page in this price list.

G Select front surface finish.
Refer to the Product Color Options page in this price list.

H Select lectern option.
Select to have the landing pad angled for better viewing of presentation material.
NL - No lectern
LU - Lectern; add $31

ATBT

Mobile Lectern - Bowed Front
• Outrigger casters or glides
• 3/4" landing pad, bowed front creates space of 3-7/8"
• Two accessory slots
• 12" file drawer, legal front-to-back
