Disclaimer: Numbers may vary based on model and options selected. Calculations of recycled content are based on data provided by suppliers and other available information. This data may include industry averages, ranges or other broadly based information. KI makes conservative assumptions when compiling information to provide the most accurate recycled content calculations possible. This document will be reviewed and updated periodically and is subject to change without notice.

Other Environmental Attributes:  
Summary outline and explanation of additional certifications.

WELL Building Standard  
The WELL Building Standard is the first standard to integrate human health and wellness into the design, construction, maintenance and operations of buildings.

Environmental Product Declaration (EPD)  
An EPD is an independently verified and registered document that communicates transparent and comparable information about the life-cycle environmental impact of a product.

SmartWay Certified  
KI has a fleet of SmartWay Certified trucks, resulting in less fuel usage, decreased exhaust output, and economic savings. In addition, we utilize other SmartWay certified trucking companies when needed.

Healthier Hospital Initiative (HHI)  
The Healthier Hospitals Initiative encourages manufacturers to provide information on furniture that meets the Healthy Interiors goals of the Safer Chemicals Challenge.

Other Attributes  
End-of-Life Recycling & Reuse: KI selects materials that can be recycled at the end of a product’s use and designs its products so that it can be easily disassembled and separated for local recycling facilities. Disassembly Instructions can be found online or by request.
