New!

Raising the Bar for Efficient Rafter and Truss Connections

**QuikStik** Rafter and Truss Fastening System

Secure, Affordable, Fast, Easy

Introducing the new standard for overhead installations of rafter and truss assemblies: Simpson Strong-Tie® Quik Stik™ rafter and truss fastening system provides contractors with a versatile solution that makes installing Strong-Drive® SDWC Truss screws for rafter and truss assemblies fast, safe and easy.

Quik Stik is easy to use and requires no formal training or certification. Quik Stik is compatible with most drill motors — even cordless models — allowing the use of existing tools, making the system versatile and affordable.

Secure, Affordable, Fast, Easy and most of all **SAFE**.

**QuikStik** Features

- Nylon over-molded head with positioning prongs that provide secure grip on the top plate during screw installation
- Extension arm for easily reaching overhead top plate/rafter connections
- Comfortable rubberized grip
- Bit holder (for T30 bit and SDWC Truss screw)
- Positioning prongs
- Rockers
- Bubble level positioning notch (every 90°)
- Holder (for T30 bit and SDWC Truss screw)
- Angle guides
- Detachable bubble level to ensure proper driving angle
Quik Stik™ Rafter and Truss Fastening System

Raising the Bar for Efficient Rafter and Truss Connections

Secure, Affordable, Fast, Easy

Because Quik Stik can reach overhead top plate and rafter/truss connections, and is compatible with most cordless drills, there’s no need for ladders, power generators, cords or air hoses.

Quik Stik System Includes:

(1) Quik Stik tool
(1) Quik Stik driver bit (replacement driver bit: BIT30TU-2-RC3)
(1) Detachable bubble level
(1) Protective case (optional and also sold separately)
