Every day we work hard to earn your business, blending the talents of our people with the quality of our products and services to exceed your expectations. This is our pledge to you.

TECHNICAL PUBLICATIONS and SOFTWARE

Wood Construction Connectors
Includes specifications and installation instructions on wood-to-wood and wood-to-concrete structural connectors. Includes load tables and material specifications.
*Available in English and Spanish versions.

Anchoring and Fastening Systems For Concrete and Masonry
Includes application information, specifications and load values for adhesive and mechanical anchors, Powder and Gas-Actuated fastening and carbide drill bits.
*Available in English and Spanish versions.

Fastening Systems
Includes specifications, application and performance information for structural, corrosion-resistant, stainless-steel and collated fasteners as well as our Quik Drive® auto-feed screw fastening systems.
*Available in English and Spanish versions

Strong-Wall® Shearwalls
All the information on our Strong-Wall shearwalls in one easy to use catalog: technical data, installation information, structural details and more. This valuable tool features engineered design solutions and applications for Wood and Steel Strong-Wall shearwalls.

Strong Frame® Moment Frame
Stronger than site-built or factory-built shearwalls, moment frames allow larger openings and smaller wall sections while still providing the loads structural designers need. Traditionally, moment frames have been time-intensive to design and labor-intensive to install. Simpson Strong-Tie has taken these factors into consideration and has created a cost-effective alternative to traditional frames - the Strong Frame® moment frame.

Cold-Formed Steel Connectors
30 products have been developed and tested using screw fasteners to obtain actual load values. Includes installation requirements and illustrations.

High Wind-Resistant Structural Connectors
For builders and homeowners on retrofitting and new construction in highwind areas.
